YOUR IDEAS WANTED for BOUNDS GREEN JUNCTION

Local people often ask if anything can be done to improve the area around Bounds Green Tube station where Bounds Green Road crosses Durnsford and Brownlow Roads.

We agree that this section of our area could be improved dramatically - this is, after all, one of the biggest gateways into the Borough and our area and many thousands of people walk or drive through it every day - *we want it to be an area people feel proud of.*

We've pledged to do something about this and we're writing to you today to find out your thoughts and ideas:

- What improvements would you like to see?
- What are your priorities?
- Have you had any bad experiences at the crossing?

New paving, seating, flower displays and heritage-style lighting are all ideas we want to see considered

We'll use the information and ideas you give us to work with the Council to see what improvements we can make.

We will also look to set up a small action group to work with us, the local Residents' Associations and Council Officers to see if, how, when and which positive changes might be possible.

On the back of this letter you'll find a short questionnaire about the crossing area and a space for you to send us back comments and suggestions — all you have to do then is fold this letter up and send it back to us FREEPOST.

We look forward to hearing from you

Matt & Ali
